

CLINICAL RESEARCH ASSOCIATE (CRA)

Are you passionate about clinical studies? Are you motivated to participate in the growth of an innovative company that develops disruptive technology? We are looking for a **Clinical Research Associate** for a 12-month term with possibility of full time position.

B-TEMIA Inc. is an emerging Canadian technology company that develops cutting-edge products in the growing market of human augmentation systems, with applications in the healthcare, industrial and military sectors. **B-TEMIA Inc.** owns a wearable Dermoskeleton™ technology powered by proprietary artificial intelligence software that provides individuals with robotized mechanical support to restore, maintain or enhance their mobility on their feet... The Company aims to become the global leader in the high growth market of human augmentation and is building a world-class team with excellence-based and audacious innovation practices.

YOUR MANDATE

Under the authority of the VP Regulatory Affairs, Quality and Clinical Studies, the incumbent will be responsible for carrying out internal and external clinical studies related to obtaining the different regulations and certifications required by the different markets.

In particular, the Clinical Research Associate will be responsible for ensuring the execution and completion of the internal and external clinical trial activities.

He will have responsibilities:

- ✓ Participate in the development of protocols and documents required by clinical experts (USA, Canada, Europe)
- ✓ Act as a liaison between clinical experts, technical experts and management
- ✓ Ensure the coordination and execution of the clinical activities of the various sites
- ✓ Coordinate and support the training of external clinicians and clinical partners
- ✓ Ensure that site selection and study start-up activities are carried out to the satisfaction of the company by guaranteeing quality deliverables, within the budgets and deadlines
- ✓ Collect documents and information essential to the fulfillment of mandates
- ✓ Identify and obtain missing data when required
- ✓ Review unwanted events and protocol gaps and make patches
- ✓ Support management in drafting and approving final reports
- ✓ Ensure the closure of the sites

REQUIRED PROFILE

- ✓ Postgraduate degree in a scientific or related field
- ✓ Minimum five (5) years of experience in a similar position
- ✓ Bilingual French and English, both oral and written (mandatory)
- ✓ Understanding the operation of motorized orthoses (an asset)
- ✓ Experience with stroke patients (asset)
- ✓ Discretion and interpersonal skills
- ✓ Good interpersonal skills and team spirit
- ✓ Autonomy, keen sense of responsibility (accountability and ownership of records), results-oriented

- ✓ Good ability to adapt to change in a dynamic and fast environment

If this position arouses your interest, please send your application to career@b-temia.com.

We will only communicate with the candidates selected for an interview.

B-Temia Inc. is an equal opportunity employer.
